EcoHealth
Alliance

Please Join us to Explore Biodiversity & Health: Linkages and Benefits

When: Tuesday 1 May 2012, 18:15-19:45 (light supper provided)

Where: Room 3, Level 1

This side event will present scientific information on the strong linkages between health and biodiversity, including zoonotic diseases and their anthropogenic drivers.

We aim to show there are ample opportunities for the conservation and health communities to form synergies for mutual benefit. Additionally, we will present scientific resources available for decision-makers on health and biodiversity linkages to support the achievement of the CBD's Strategic Plan for Biodiversity 2011 – 2020 and the 20 Aichi Biodiversity Targets.

Please join us to engage in the discussion on how we can best access these resources to turn science into effective biodiversity and health-promoting policy!

Programme

18:15-18:25

Welcome & Introductory Remarks
Dr David Cooper, CBD

18:25-19:10

Presentation on the Scientific Knowledgebase and Resources for Policymakers
Ms. Kathryn Campbell, CBD

Dr Peter Daszak, President, EcoHealth Alliance

Dr Anne- H el ene Prieur-Richard, Deputy Director, DIVERSITAS

19:10-19:35

Questions and Discussion

19:35-19:45

Concluding Remarks

This side event will be conducted in English.
