A DIVERSITAS GENERAL

Contribution to the work of the Convention on Biological Diversity

Global Biodiversity Outlook-3

The study "[Biodiversity Scenarios: Projections of 21st century change in biodiversity and associated ecosystem services](#)", by Paul Leadley et al. (co-Chair bioDISCOVERY), coordinated by DIVERSITAS, UNEP-WCMC, and the Secretariat of the CBD, was released, as part of the Global Biodiversity Outlook-3, [GBO-3](#), by the Executive Secretary of the Convention on Biological Diversity on 10 May at CBD-SBSTTA 14 in Nairobi.

GMBA Mountain Biodiversity Portal for GBIF

The Global Mountain Biodiversity Assessment (GMBA) of DIVERSITAS released the Mountain Biodiversity Portal at CBD-SBSTTA 14, on 10 May, in collaboration with GBIF. Please see mountainbiodiversity.org; [DIVERSITAS statement](#)

DIVERSITAS involved in four side events at CBD-SBSTTA 14

DIVERSITAS co-organised **four side events at CBD-SBSTTA 14**: GBO-3 ([11 May](#) and [12 May](#)), [GEO BON](#) (13 May), and [IPBES](#) (14 May).

Contribution to discussions on CBD post 2010 target

G. Mace et al. 2010. Biodiversity targets after 2010. Current Opinion in Environmental Sustainability. [In press](#). This paper originated from discussions at SC-DIVERSITAS meetings and is co-authored by SC-DIVERSITAS members.

A. Larigauderie, G.M. Mace, H.A. Mooney: [Colour-coded targets would help clarify biodiversity priorities](#), 2010, *Nature*, vol. 464, no. 160.

Contribution to the consultation on IPBES (Intergovernmental Platform on Biodiversity and Ecosystem Services)

CBD-PreCOP10 IPBES science-policy forum

21-23 March 2010, Nagoya, Japan

Plenary science-policy dialog on IPBES with Japanese Vice-Minister of Environment, Mr Tajima; 300 participants organised by DIVERSITAS/Ministry of Environment, Govt of Japan, Secretariat of CBD. [More](#)

North American consultation on IPBES

27 April 2010, Washington DC, USA

USNC DIVERSITAS, UNEP Regional Office North America [More](#)

Friday 14 May, Nairobi, Kenya

DIVERSITAS-IUCN-ICSU-IHDP. [More](#)

Contribution to 2010, the International Year of Biodiversity

UNESCO IYB Biodiversity Science Policy Conference

25-29 January 2010, Paris, France

This conference marked the launch of the International Year of Biodiversity (IYB) by UNESCO, one of the sponsors of DIVERSITAS.

A Larigauderie was invited to speak at the session on “Mainstreaming biodiversity into decision-making: Towards a biodiversity science policy”, co-sponsored by SCOPE, on the following topic: “Biodiversity science moving closer to decision making: experiences from international science programmes”.

The conclusions and recommendations of this Conference will be presented at the 10th meeting of the Conference of the Parties (COP10) to the Convention on Biological Diversity (CBD) to be held in Nagoya, Japan in October 2010. [More](#)

Trondheim/UN Conference "Getting the biodiversity targets right - working for sustainable development"

1-5 February 2010, Trondheim, Norway

A Larigauderie and P Leadley represented DIVERSITAS and gave presentations respectively on the post 2010 biodiversity targets and on the biodiversity scenarios of the Global Biodiversity Outlook 3 of the CBD. [More](#)

CBD-PreCOP10 science-policy forum

21-23 March 2010, Nagoya, Japan

DIVERSITAS co-convened with the Government of Japan - Ministry of Environment, a CBD-COP10 Pre-Conference on three main topics: an Intergovernmental science-policy platform on Biodiversity and Ecosystem Services (IPBES), the post 2010 biodiversity targets and an Asian Pacific Biodiversity Observing Network. The recommendations (short [report](#) and long [report](#)) were presented at the Convention on Biological Diversity SBSTTA 14 meeting (10-21 May 2010, Nairobi, Kenya).

GEO Biodiversity Observation Network (GEO BON)

GEO BON, the Group on Earth Observations Biodiversity Observation Network, is the biodiversity arm of the Global Earth Observation System of Systems (GEOSS), co-led by DIVERSITAS, NASA, and EBONE (the European BON). Its goal is to coordinate the implementation of a global biodiversity observation system.

GEO BON implementation plan meeting

22-26 February 2010, Asilomar, California, USA

SC-GEO BON, GEO BON working groups and other stakeholders met to finalize the GEO BON implementation plan, which will be released at the Convention on Biological Diversity SBSTTA 14 meeting (10-21 May 2010, Nairobi, Kenya).

SC-DIVERSITAS meeting

24-25 March 2010, Nagoya, Japan

The last meeting of the SC-DIVERSITAS was hosted by Japan back to back with the CBD-PreCOP10 science-policy forum. Discussions focused on implementation of projects and networks of DIVERSITAS and ESSP, on strategic science-policy activities of DIVERSITAS, and on updating the science plan of DIVERSITAS, first published in 2002.

Biodiversity, Ecosystem Services and Human Well-Being (Larigauderie and Mooney, eds)

The latest issue (May 2010; volume 2, issue 1-2) of the ESSP journal, **Current Opinion in Environmental Sustainability**, is entirely **dedicated to Biodiversity, Ecosystem Services and Human Well-Being**. Please see the editorial [here](#) and online edition [here](#).

B DIVERSITAS CORE PROJECTS AND NETWORKS

bioGENESIS

DIVERSITAS welcomes **Dr Makiko Mimura** as the new Project Officer for bioGENESIS. The IPO is hosted by the Department of Biology at Kyusyu University, Japan.

Next SC-bioGENESIS meeting

19-20 July 2010, Bali, Indonesia

In conjunction with the conference of the Association of Tropical Biology Conservation (ATBC; 19-23 July 2010, Bali).

Symposium "Phylogeography, geography and evolutionary history in Latin America" at the ATBC conference

19-23 Jul 2010, Bali, Indonesia

Contact: L [Lohmann](#)

Eco-evolutionary approaches to understanding and predicting the response of species range to climate change

28-30 August 2010, Kyushu University, Japan

This is a joint workshop of bioGENESIS and bioDISCOVERY entitled "Eco-evolutionary approaches to understand and predict the response of species range to climate change". This activity is part of the project "Monitoring and assessment of global biodiversity changes for achieving the post-2010 targets" supported by the Environmental Research & Technology Development Fund, Ministry of Environment, Japan. The workshop aims at developing collaborative efforts to bridge the gap between evolutionary and functional ecology to improve modelling changes in species distribution and abundance in response to climate change.

For more information, contact M [Mimura](#) or C [Krug](#)

bioDISCOVERY

DIVERSITAS welcomes **Dr Cornelia [Krug](#)** as the new Project Officer for bioDISCOVERY.

This is made possible thanks to CNRS, the Centre National de la Recherche Scientifique of France. This office is co-hosted by the DIVERSITAS Secretariat and by the University Paris-Sud 11 (Ecologie, Systématique et Evolution), France.

Release of GLOBAL BIODIVERSITY OUTLOOK 3 (GBO-3): A synthesis of global biodiversity scenarios for the CBD

P Leadley, co-Chair of the SC-bioDISCOVERY, led a synthesis of scenarios of biodiversity change over the 21st century for the Convention on Biological Diversity (CBD), in which several SC-bioDISCOVERY and SC-DIVERSITAS members were involved. The main messages of the scenarios synthesis have been incorporated into the Global Biodiversity Outlook 3 (GBO-3) Report, launched on 10 May at CBD-SBSTTA 14, in Nairobi, Kenya. [More](#)

Improving the representation of biodiversity in vegetation modelling

March 2011, Paris

In 2009, the TRY (Refining plant functional classifications for earth system modelling) and BBS (Advanced prediction of Biome Boundary Shifts in regional and global dynamic vegetation models) initiatives joined forces to improve modelling of biodiversity complexity to contribute to the understanding how vegetation and ecosystems respond to global change.

A joint workshop, focussing on 1) Improving regional and global models of vegetation dynamics and ecosystem function and 2) Expanding and developing applications for the TRY global plant functional trait database, was held in Cape Town in October 2009. A document detailing the TRY Intellectual Property Guidelines was prepared and is available on <http://www.try-db.org>.

The next joint workshop will be held in Paris in March 2011, with the themes "First products from the global plant trait data base" and "Towards a new generation of DGVM: integrating functional diversity into DGVM". For more information, contact C [Krug](#).

Eco-evolutionary approaches to understanding and predicting the response of species range to climate change

28-30 August 2010, Kyushu University, Japan

This is a joint workshop of bioGENESIS and bioDISCOVERY entitled "Eco-evolutionary approaches to understand and predict the response of species range to climate change". This activity is also a part of the project "Monitoring and assessment of global biodiversity changes for achieving the post-2010 targets" supported by the Environmental Research & Technology Development Fund, Ministry of Environment, Japan. The workshop aims at developing collaborative efforts to bridge the gap between evolutionary and functional ecology to improve modelling changes in species distribution and abundance in response to climate change.

Meeting of AquaBase

5-6 June 2010, Santa Fe, USA

This meeting (upon invitation) is organised in conjunction with the North American Benthological Society Meeting (6-11 June). Contact: M [Palmer](#)

Global Mountain Biodiversity Assessment (GMBA)

GMBA/GBIF Mountain Biodiversity Portal online

10 May 2010, CBD-SBSTTA14, Nairobi, Kenya

The latest project of GMBA, to provide a Mountain Biodiversity Portal, in collaboration with Global Biodiversity Information Facility, GBIF, is now available. You can now explore GBIFs biodiversity data for the mountains of the world virtually on an interactive map, and search mountain areas from region to globe, or select mountain life zones by [range of elevation or thermal belts](#). Mountain areas are defined by [ruggedness of terrain](#), using WORLDCLIM digital elevation data.

You are welcome to visit the Portal at www.mountainbiodiversity.org or to see a [demo video](#)

This mountain portal corresponds to a mandate from the CBD, as part of the implementation of its Programme of Work on mountain biodiversity.

GMBA-GBIF-ICIMOD training workshop

14-18 June 2010

The goal of this workshop is to improve relevant biodiversity data from the Himalayan region and to provide open access to high quality geo-referenced biodiversity information.

International GMBA-DIVERSITAS conference: Functional significance of mountain biodiversity.

27 - 30 July 2010, Chandolin (Valais), Switzerland.

[More](#)

GMBA Workshop: "Geostatistics and Biodiversity Information in the Himalaya's"

The reports of the GMBA workshop 'Geostatistics and Biodiversity Information in the Himalayas' and of the international mountain biodiversity conference on 'Biodiversity and Land Use, Biosphere Reserves and Transboundary Parks under Natural and Human Pressures of Global Change', November 2008 in Kathmandu, Nepal, are now available [here](#)

Global Invasive Species Programme (GISP)

"Helping Islands Adapt - A Workshop on Regional Action to Combat Invasive Species"

12th-16th April 2010, Auckland, New Zealand

This initiative involved the organisation of an event with a number of government agencies from New Zealand and the USA at the 17th Session of the Commission on Sustainable Development in May in New York. [More](#)

C NEWS FROM THE NATIONAL COMMITTEES AND REGIONAL NETWORKS

DIVERSITAS National Committees meeting

13 October 2009, Cape Town, S-Africa

Following up on a meeting of the DIVERSITAS Full Members (12 October 2009), the first day of the Second DIVERSITAS Open Science Conference was dedicated to the Members of DIVERSITAS (Full and Affiliated Members) and representatives of countries willing to become a DIVERSITAS Members. The discussions were very fruitful and more information is available [here](#).

China

22 January 2010, Beijing, China

The Chinese National Committee CNC-DIVERSITAS 2010 annual meeting was held on January 22, 2010 in Beijing, China, with a total of 17 members attending the meeting. The Secretary-General, Prof. K Ma reported the year's work of CNC-DIVERSITAS in 2009 and outlined a work plan for 2010. The report focused on the progress of three projects; academic activities; publishing and international communications. [More](#).

European Alliance

European Alliance of Global Change Research Committees (4th meeting)

September 2010, Bucharest, Romania

The European Alliance of Global Change Research committees provides a platform for an integrated approach to global change research linking the major international research programs WCRP, IGBP, IHDP and DIVERSITAS and in cooperation with ESSP. The next meeting will be organised by the Romanian National Committee for Global Environmental Change. [More information](#); contact [B Höll](#) or [D Balteanu](#).

Germany

2-3 March 2010, Berlin, Germany

The German National Committee on Global Change Research held a 2nd round table discussion on "Climate engineering – Responsibility of Sciences".

[More](#)

Norway

The Norwegian Global Change Committee was reappointed in November 2009. One objective of the committee is to be advisory to the Research Council of Norway and to the four Global Environmental Change Programs DIVERSITAS, IGBP, IHDP and WCRP, as well to The International Institute for Applied Systems Analysis (IIASA). Philippines

2nd Regional Symposium and Workshop organized by Outstanding Young Scientists, Inc. (OYSI)

26-27 October 2009, Musuan, Philippines

The 2nd Regional Symposium and Workshop organized by the Outstanding Young Scientists, Inc. (OYSI) in cooperation with Central Mindanao University and DIVERSITAS was conducted last October, on "Climate Change and Biodiversity".

17-19 November 2010, Manila, Philippines

The Commission on Higher Education (CHED) and the Department of Environment and Natural Resources (DENR) are jointly organizing an International Conference on Biodiversity and Climate Change, with the collaboration of DIVERSITAS, ASEAN Center for Biodiversity (ACB) and World Wildlife Fund. D Faith and T Yahara, co-Chairs of bioGENESIS, and A-H Prieur-Richard will give presentations on various projects and activities of DIVERSITAS.

Switzerland

Have biodiversity losses bottomed out in Switzerland? Conference

22 April 2010, Zürich, Switzerland

In 2003, science ministers set the goal to stop biodiversity loss in Europe until 2010. The conference asked whether this goal had been reached. In collaboration with 80 experts, the Swiss Biodiversity Forum of the Swiss Academy of Sciences prepared a comprehensive assessment of the state of biodiversity in Switzerland. Based on best available data, various biodiversity aspects and trends since 1900 were analysed. With a few exceptions, strong biodiversity losses were documented until 1980. After that, losses were limited but not halted. The conference presented current facts and figures and discussed options for action. A new book was released there. [More](#)

Biodiversity: research and action needed beyond 2010

8–9 November 2010, Fribourg, Switzerland

Towards the end of the International Year of Biodiversity the SWIFCOB conference will discuss the future of biodiversity after 2010. The results will help in the advancement and implementation of the Swiss biodiversity strategy.

Insufficient spending for national habitat conservation in Switzerland

Latest cost estimates reveal that Switzerland would have to double its yearly spending in order to achieve a conservation status conforming to the existing law. The analysis was carried out by the Swiss Federal Institute of Forest, Snow and Landscape Research, Pro Natura (NGO) and the Swiss Biodiversity Forum. Switzerland has nearly 6000 habitat sites with a national protection level. They cover about 2 percent of the territory, but the habitat quality is deteriorating. The study reveals that the administration is not sufficiently conforming to the legal requirements.

Furthermore, in order to restore the quality of the protected habitats to achieve their initial inventorisation status, an extra 1.5 billion USD would be necessary, in addition to the current yearly expenses. [More](#).

United States

The US National Committee joined with the National Council for Science and the Environment (NCSE) and the Encyclopedia of Life to organize a workshop requested by NSF as a background discussion for their new, decadal Dimensions of Biodiversity campaign. The NSF Research program will aim at better understanding and delimiting the taxonomic, genomic and functional dimensions of biodiversity. [More](#)

The USNC also collaborated with NCSE to sponsor a reception for the Council of Environmental Deans and Directors (CEDD) on January 22, 2010, as part of the CEDD annual meeting in Washington. At that event, USNC member Lynne Parenti gave a short talk about DIVERSITAS to the attendees; these collaborations will continue in order to increase awareness of DIVERSITAS in the U.S. academic and policy communities.

The US National Committee for DIVERSITAS co-hosted with US-NAS, UNEP RONA and IUCN on 27 April in Washington, a consultation on the Intergovernmental science-policy platform on Biodiversity and Ecosystem Services (IPBES) for North America. [Full Report](#). Contact: [Margaret R. Goud Collins](#)

Vietnam

ASEM Workshop

5 January 2010, Brunei

Dr N Huu Ninh, Chairman of the Centre for Environment Research, Education and Development in Vietnam, delivered his talk on biodiversity, impacts, vulnerability and adaptation to climate change during the **Asem Workshop 2010** at the UBD Chancellor Hall. [More](#)
